The efficacy of **Dr. Heuberger's Desinfektion** against Murine norovirus strain S99 was tested in a suspension test according to the European standard DIN EN 14476:2013+A1:2015/prA2:2016. The effectiveness of the disinfectant was evaluated under both clean conditions (0.3 g/l BSA) and dirty conditions (3.0 g/l BSA + 3.0 ml/l erythrocytes) as interfering substance. **Dr. Heuberger's Desinfektion** was tested as a 100 ppm, 1000 ppm and 2000 ppm concentration. The exposure time was 5 minutes.

**In conclusion, the product Dr. Heuberger's Desinfektion is effective against Murine norovirus strain S99 at room temperature under clean conditions (0.3 g/l BSA) and dirty conditions (3.0 g/l BSA + 3.0 ml/l erythrocytes) as interfering substance with an application time of 5 minute.**
